Introduction

The IPPC-5211WS 21.5" fully sealed stainless steel multi-touch panel PC is IP69K rated and has a detachable product portfolio designed for OEMs and process manufacturing. It supports special functions via iDoor. iKey and an antenna, and is designed for HMIs which require better performance and functionality of machine-level interfaces used in Machineto-Machine (M2M), Internet of Things (IoT) etc which require extra protection for hygienic and harsh environments where the intrusion of dust, condensation and water jets is possible. The IPPC-5211WS can also perform a touch shut-down to avoid accidental operation.
